Chapter 1-1: Introduction to Healthcare Terminology

Test Bank

MULTIPLE CHOICE

1. Alzheimer disease is an example of a(n):
- a. prefix.
 - b. word root.
 - c. eponym.
 - d. decodable term.

ANS: C PTS: 1 REF: 4
OBJ: Derivations & Recognition of Types of Terms
TOP: Nondecodable Terms

2. *Arthr/o* is an example of a:
- a. prefix.
 - b. word root.
 - c. suffix.
 - d. combining form.

ANS: D PTS: 1 REF: 6
OBJ: Rules to Build, Spell, & Pronounce
TOP: Word Parts & Decodable Terms

3. In the term *hypodermic*, the prefix is:
- a. hypo.
 - b. derm.
 - c. dermo.
 - d. ic.

ANS: A PTS: 1 REF: 17
OBJ: Rules to Build, Spell, & Pronounce
TOP: Word Parts & Decodable Terms

4. In the term *neonatology*, the suffix is:
- a. neo.
 - b. nat.
 - c. nato.
 - d. logy.

ANS: D PTS: 1 REF: 15
OBJ: Rules to Build, Spell, & Pronounce
TOP: Word Parts & Decodable Terms

5. A word root for “bone” is:
- a. osis.
 - b. oste.
 - c. ophthalm.
 - d. opsy.

ANS: B PTS: 1 REF: 21
OBJ: Rules to Build, Spell, & Pronounce

TOP: Word Parts & Decodable Terms

6. The word component that refers to the stomach is:
- a. gastr/o.
 - b. col/o.
 - c. enter/o.
 - d. path/o.

ANS: A PTS: 1 REF: 21
OBJ: Rules to Build, Spell, & Pronounce
TOP: Word Parts & Decodable Terms

7. The prefix *anti-* means:
- a. before.
 - b. after, behind.
 - c. near.
 - d. against.

ANS: D PTS: 1 REF: 16
OBJ: Rules to Build, Spell, & Pronounce
TOP: Word Parts & Decodable Terms

8. If a patient is being treated for hypothermia, he/she has abnormally:
- a. high body temperature.
 - b. low body temperature.
 - c. high blood pressure.
 - d. low blood pressure.

ANS: B PTS: 1 REF: 10 | 17 | 21
OBJ: Rules to Build, Spell, & Pronounce
TOP: Word Parts & Decodable Terms

9. A patient who has a prenatal visit sees her practitioner:
- a. after the birth of her child.
 - b. before the birth of her child.
 - c. the time surrounding the birth of her child.
 - d. at the time of delivery.

ANS: B PTS: 1 REF: 17
OBJ: Rules to Build, Spell, & Pronounce
TOP: Word Parts & Decodable Terms

10. A patient has a surgical procedure described as an *arthrotomy*. You know that the joint:
- a. was incised.
 - b. was removed.
 - c. had a new opening made.
 - d. was visually examined.

ANS: A PTS: 1 REF: 13
OBJ: Rules to Build, Spell, & Pronounce
TOP: Word Parts & Decodable Terms

11. A notation is made about an instrument to be ordered for the hospital. It makes a record of the electrical activity of the heart. The instrument is called an:
- a. electrocardioscope.
 - b. electrocardiogram.
 - c. electrocardiograph.
 - d. electrocardiography.

ANS: C PTS: 1 REF: 14
OBJ: Rules to Build, Spell, & Pronounce | Sort Word Parts Into Healthcare Vocabulary
TOP: Word Parts & Decodable Terms

12. You are checking a report for errors and find that one of the procedures listed is misspelled. Which one is it?
- a. esophagogastroduodenoscopy
 - b. colostomy
 - c. ileotomy
 - d. ostetomy

ANS: D PTS: 1 REF: 8
OBJ: Rules to Build, Spell, & Pronounce
TOP: Pronounce/Spell | Word Parts & Decodable Terms

13. Neurology is a discipline that would most likely treat patients with disorders of the:
- a. nerves.
 - b. teeth.
 - c. stomach.
 - d. joints.

ANS: A PTS: 1 REF: 21
OBJ: Rules to Build, Spell, & Pronounce
TOP: Word Parts & Decodable Terms

14. An instrument used to cut bone is an:
- a. osteotome.
 - b. osteoscope.
 - c. osteotripter.
 - d. osteometer.

ANS: A PTS: 1 REF: 14
OBJ: Sort Word Parts Into Healthcare Vocabulary
TOP: Word Parts & Decodable Terms

15. A surgical repair of the external ear may be termed:
- a. otoplasty.
 - b. oculoplasty.
 - c. tympanoplasty.
 - d. trophoplasty.

ANS: A PTS: 1 REF: 21
OBJ: Rules to Build, Spell, & Pronounce
TOP: Word Parts & Decodable Terms

16. The study of disease is:
- a. pathology.
 - b. neonatology.
 - c. obstetrics.
 - d. biology.

ANS: A PTS: 1 REF: 21
OBJ: Rules to Build, Spell, & Pronounce | Disciplines & Specialties
TOP: Word Parts & Decodable Terms

17. An enlargement of the heart is:
- a. cardialgia.
 - b. cardiopathy.
 - c. cardiorrhexis.
 - d. cardiomegaly.

ANS: D PTS: 1 REF: 11
OBJ: Rules to Build, Spell, & Pronounce
TOP: Word Parts & Decodable Terms

18. A new opening of the small intestines is a(n):
- a. colostomy.
 - b. colotomy.
 - c. enterostomy.
 - d. enterotomy.

ANS: C PTS: 1 REF: 13 | 21
OBJ: Rules to Build, Spell, & Pronounce
TOP: Word Parts & Decodable Terms

19. A dermatosis would be a(n):
- a. abnormal condition of the skin.
 - b. an examination of the skin.
 - c. a discharge or flow from the skin.
 - d. an instrument for cutting the skin.

ANS: A PTS: 1 REF: 11
OBJ: Rules to Build, Spell, & Pronounce
TOP: Word Parts & Decodable Terms

20. A patient has a hypertrophied scar. You recognize that this means the scar is:
- a. inflamed.
 - b. bleeding.
 - c. overdeveloped.
 - d. underdeveloped.

ANS: C PTS: 1 REF: 17 | 21
OBJ: Rules to Build, Spell, & Pronounce
TOP: Word Parts & Decodable Terms

21. As part of the operative procedure, the surgeon performs an enteroplasty. You know that she has ____ part of the intestines.
- a. enlarged
 - b. sutured
 - c. drained
 - d. repaired

ANS: D PTS: 1 REF: 13
OBJ: Rules to Build, Spell, & Pronounce
TOP: Word Parts & Decodable Terms

22. In the term “periosteum,” you know that the suffix refers to:
- a. a structure.
 - b. surrounding.
 - c. bone.
 - d. through.

ANS: A PTS: 1 REF: 9
OBJ: Rules to Build, Spell, & Pronounce | Sort Word Parts Into Healthcare Vocabulary
TOP: Word Parts & Decodable Terms

23. A biopsy is a(n) _____ of living tissue.
- a. disease process
 - b. inflammation
 - c. removal and microscopic viewing
 - d. bursting forth

ANS: C PTS: 1 REF: 12
OBJ: Rules to Build, Spell, & Pronounce | Sort Word Parts Into Healthcare Vocabulary
TOP: Word Parts & Decodable Terms

24. A patient with muscular dystrophy has _____ of the muscles.
- a. abnormal development
 - b. an incision
 - c. a visual examination
 - d. a new development

ANS: A PTS: 1 REF: 16 | 21
OBJ: Rules to Build, Spell, & Pronounce
TOP: Word Parts & Decodable Terms

25. Patients with food caught in their interdental spaces have pieces of food:
- a. within their teeth.
 - b. between their teeth.
 - c. under their teeth.
 - d. above their teeth.

ANS: B PTS: 1 REF: 17
OBJ: Rules to Build, Spell, & Pronounce
TOP: Word Parts & Decodable Terms

26. Examining the term *epidermis*, you would expect that the word part *epi-* refers to a structure _____ the dermis.
- a. below
 - b. around
 - c. within
 - d. above

ANS: D PTS: 1 REF: 16
OBJ: Rules to Build, Spell, & Pronounce
TOP: Word Parts & Decodable Terms

27. If you are told that “cutaneo” is a combining form for the skin, then *percutaneous* would refer to a term that describes something that is _____ the skin.
- a. under
 - c. surrounding

32. The rules for combining a word root and a suffix that starts with a vowel dictate that you should:
- add a combining vowel before the suffix.
 - directly connect the word root and suffix.
 - reverse the suffix and word root so the suffix comes first.
 - add another word root to join the suffix and initial word root.

ANS: B PTS: 1 REF: 8

OBJ: Rules to Build, Spell, & Pronounce

TOP: Pronounce/Spell | Word Parts & Decodable Terms

33. The rule for the order of joining word roots at the beginning of a term is:
- put them in alphabetic order and add combining vowels, regardless of whether the initial letter is a consonant or a vowel.
 - put them in alphabetic order and add combining vowels only if the initial letter is a vowel.
 - put them in order of the directionality of the body system and add combining vowels between each word root, regardless of whether the initial letter starts with a consonant or a vowel.
 - put them in order of the directionality of the body system and add combining vowels between the word roots only if the initial letter is a consonant.

ANS: C PTS: 1 REF: 8

OBJ: Rules to Build, Spell, & Pronounce

TOP: Pronounce/Spell | Word Parts & Decodable Terms

34. Most medical terms are from which two languages?
- Spanish, English
 - English, Latin
 - English, Greek
 - Greek, Latin

ANS: D PTS: 1 REF: 2

OBJ: Derivations & Recognition of Types of Terms

TOP: Word Parts & Decodable Terms

35. Which is spelled correctly?
- gastrotomy
 - gastroectomy
 - gastrscopy
 - gastroistis

ANS: A PTS: 1 REF: 8

OBJ: Rules to Build, Spell, & Pronounce

TOP: Pronounce/Spell | Word Parts & Decodable Terms

36. The plural of vertebra is:
- vertebri.
 - vertebras.
 - vertebrus.
 - vertebrae.

ANS: D PTS: 1 REF: 19
OBJ: Rules to Build, Spell, & Pronounce TOP:
Pronounce/Spell

37. The plural of diagnosis is:
- a. diagnoses.
 - b. diagnosi.
 - c. diagnosises.
 - d. diagnosae.

ANS: A PTS: 1 REF: 19
OBJ: Rules to Build, Spell, & Pronounce TOP:
Pronounce/Spell

38. The plural of phalanx is:
- a. phalangi.
 - b. phalanxae.
 - c. phalanges.
 - d. phalangus.

ANS: C PTS: 1 REF: 19
OBJ: Rules to Build, Spell, & Pronounce TOP:
Pronounce/Spell

39. What is the singular of thrombi?
- a. thromba
 - b. thrombus
 - c. thrombis
 - d. thromba

ANS: B PTS: 1 REF: 19
OBJ: Rules to Build, Spell, & Pronounce TOP:
